- 透過性88% 厚さ14.5mm 40kg/m²

Reliable products, creating a sense of security

A customized design barrier structure is used to insure the utmost robustness and stability.

The barrier's hardware is designed and manufactured by KIN LONG, a top listed brand with reliable and long lasting market recognition.

Surface with anti-fingerprint technology, anti-stain, easy to clean, eco-friendly.

Preventing inwards shattering, the double sided laminated tempered glass, will insure safety for all.

Waterproof cover protection is used to insure the power supplies are kept dry and well grounded.
